

Bridge Books

These titles are all chapter books that would work as a good transition between easy readers and full chapter books. Many of the titles in this list are part of a series, which means there are a number of titles associated with each series. You can find them by typing the series title into the search bar on the MORE website. The following titles are shelved in the Juvenile Fiction section by the first three letters of the author's last name unless otherwise noted. Need help? Ask a librarian! Book Levels are given for each book. This represents the difficulty of the text. For example, a book level of 2.9 means the text could likely be read independently by a student whose reading skills are at the level of a typical second grader during the ninth month of school.
